

## COVID-19 Guidance for Retail Pharmacies

OSHA is committed to protecting the health and safety of America's workers and workplaces during these unprecedented times. The agency will be issuing a series of industry-specific alerts designed to help employers keep workers safe.

In a retail pharmacy, the following tips can help reduce the risk of exposure to the coronavirus:

- Encourage workers who are sick to stay at home.
- Install clear plastic barriers between workers and customers at order/pickup counters.
- Use signage and floor markers to keep waiting customers at least six feet from the counter, other customers, and pharmacy staff.
- Encourage drive-through or curbside pickup and home delivery, where feasible.
- Encourage customers to submit prescriptions online or by phone. Allow customers to provide their insurance information verbally or virtually (e.g., through mobile apps or the pharmacy's website).
- Specify hours dedicated to vulnerable populations (the elderly, people with underlying health conditions, etc.).
- Increase the use of self-serve checkout to minimize worker interaction with customers.
- Limit the number of customers allowed inside the facility at any point.
- Frequently clean and disinfect checkout and customer service counters.
- Provide a place to wash hands and alcohol-based hand rubs containing at least 60 percent alcohol.
- Allow workers to wear cloth face coverings or surgical masks over their nose and mouth to prevent them from spreading the virus.
- Provide gloves and eye and face protection, as necessary, for workers in the pharmacy.
- Pharmacists providing clinical services to patients, such as immunizations, might need additional protections. Consult OSHA's healthcare worker and employer guidance.
- Encourage workers to report any safety and health concerns.
